SUMMARY

CS undergraduate (GPA: 9.16) with 4 frontend projects, independent macroeconomic research, and proven leadership growing a technical club by 300%. Seeking remote internship or research assistant roles in frontend engineering or research-oriented work.

EDUCATION

B.Tech, Computer Science Engineering

VIT Bhopal University | **GPA: 9.16**

Expected: 2028

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Design, DOM Manipulation, UI State Handling

Frameworks / Libraries: Bootstrap, React (learning), Flask

Languages: JavaScript, Python, C++, MySQL

Tools: VS Code, GitHub, Figma, Canva, MATLAB

Other: Research Methodology, Academic & Technical Writing

RESEARCH

Policy Credibility, Monetary Tightening, and the UK's Economic Downturn

- Authored an independent undergraduate research paper analyzing the UK's 2022 economic instability, covering inflation dynamics, fiscal shocks, and monetary tightening.
- Examined how policy credibility, fiscal communication, and institutional signaling contributed to currency depreciation and bond market stress.
- Applied qualitative analysis of macroeconomic indicators, policy statements, and peer-reviewed literature — paper available upon request.

PROJECTS

Personal Portfolio — <https://aarushi-saki-portfolio.vercel.app/>

- Designed and developed a live, responsive portfolio showcasing projects, skills, and leadership experience with a mobile-first approach.
- Implemented smooth navigation, interactive UI elements, and clean visual hierarchy — includes GitHub project links and research paper download.

VITB Clubs

- Built a full-stack club discovery platform using Flask, MySQL, Bootstrap, HTML, CSS, and JavaScript with search functionality and contact forms.
- Designed backend database schemas and server-side logic to support dynamic content delivery; deployment-ready with modular, scalable architecture.
- Source code available on GitHub with full documentation.

QuizMyTech

- Built an interactive quiz platform using Flask and REST APIs to deliver real-time, personalized user experiences with dynamic question handling.
- Focused on UX optimization and backend scalability; production-ready and pending deployment. Source code available on GitHub.

Event Management Website

- Developed a multi-section, scroll-snapped event management website with dynamic navigation, testimonials carousel, and event galleries.
- Implemented hamburger sidebar menu, profile dropdown, modal-based event details, and infinite scrolling testimonials.
- Designed responsive grid-based layouts emphasizing visual hierarchy; codebase structured for scalability on GitHub.

LEADERSHIP & EXPERIENCE

President | GSoC Innovators Club

Sep 2025 – Mar 2026

- Grew club membership by 300% (14 to 57 members) through structured outreach and engagement initiatives.
- Increased online following by 150% via targeted social media campaigns; spearheading a Tech Newsletter expected to reach 1,000+ students.

PR & Outreach Lead | GSoC Innovators Club

Feb 2025 – Sep 2025

- Secured title sponsorship from UnStop, increasing event visibility and brand recognition among 400+ participants through cross-team collaboration.

Event Management Co-Lead | Cisco Community

Jul 2025 – Nov 2025

- Facilitated recruitment and interviews for 15+ candidates, accelerating onboarding by 30% and strengthening team diversity.
- Implemented standardized collaboration protocols, improving internal communication effectiveness by 40%.

Core Member | Cisco Community

Nov 2024 – Jul 2025

- Designed event decor arrangements that contributed to a 30% increase in attendee satisfaction scores based on post-event surveys.
